Jennifer,

The New Jersey Drinking Water Quality institute publicly released its recommendation to NJDEP for PFOA at 14 ng/L. The technical basis has been posted at [http://www.nj.gov/dep/watersupply/g\\_boards\\_dwqi.html](http://www.nj.gov/dep/watersupply/g_boards_dwqi.html) for a meeting on September 22<sup>nd</sup>. Following that we would expect a formal referral from the institute with a recommendation to the NJDEP for a MCL. The next step would be determination by the Department if it would move forward to adopt as a MCL through rule making.

Stephen E. Maybury
